Pankl Aerospace specializes to be the one stop shop for the aviation business by offering the complete range from the design of customized aircraft products to the EASA design certification and the delivery of the parts with EASA Form 1.

Being an EASA Part 21J approved Design Organisation, Pankl Aerospace offers Engineering Services for a variety of projects.

The Engineering Services ranges from designing any components based on customer requirements up to the full EASA certification including any testing required.

Part 21 J - Engineering Services:

Large Aeroplanes

STCs and/or REPAIRS related to:

- Structure
- Cabin Interiors

Small Aeroplanes - Small Rotorcraft - Large Rotorcraft

MINOR CHANGES and/or MINOR REPAIRS related to:

- Cabin Interiors

Small Aeroplanes

Large Aeroplanes

Small Rotorcraft

Large Rotorcraft

1. Cabin Class Divider
2. Cabin Stowages & Galleys
3. Structural Parts
4. Interior & Exterior Placards
5. Carbon Literature Pockets

Our portfolio consists of lightweight, highly reliable Aircraft Cabin interior parts, which are fully customized based on the customer requirements.
